SUMMARY

A highly motivated and detail-oriented Software Engineering undergraduate with strong skills in full-stack web development, including React, Node.js, and MySQL. Experienced in developing user-centric applications and managing end-to-end project lifecycles. Passionate about solving real-world problems through technology and continuously improving both technical and soft skills. Seeking an opportunity to contribute to a dynamic development team and grow within a forward-thinking organization.

TECHNICAL SKILLS

Programming Languages

Java, Python, JavaScript, HTML, CSS, C#

Frameworks

React, NodeJs, Spring Boot, Bootstrap, ExpressJs

Tools and Platforms

Git, Github, Figma, VS Code, Postman, Jira, Draw.io Workbench

Databases

MySQL

Soft skills

Communication, Problem Solving, Time Management, Team Work

EDUCATION

KIU CAMPUS

Sep 2022- Present

BSc. (Hons) in Software Engineering

Koswatta, Battaramulla

Dharmaraja College

2017 - 2019

Advanced Level Examination

Kandy, Sri Lanka

WORK EXPERIENCE

Divisional Secretariat- Akurana

June 2022 - Dec 2022

Trainee Draughtsman

- Created detailed 2D and 3D technical drawings for civil engineering projects using AutoCAD
- Assisted in preparing bill of quantities (BOQs) and material take-offs based on drafted designs
- Conducted site visits to collect measurements and update as-built drawings accordingly

PROJECTS

Atharaman

Spring Boot, ReactJS, MySQL

Fullstack Web Application

[Github Link](#)

The 'ATHARAMAN' website project is a comprehensive camping details website designed for camping enthusiasts. This research-based platform will serve as an essential resource, providing detailed insights into camping locations, gear recommendations, guides, safety tips, weather updates, and more. Given the rising popularity of outdoor activities, especially camping, there is a growing demand for reliable, centralized information that can enhance the overall camping experience. Our project intends to fill this gap by offering a well-organized, user-friendly platform that caters to both new and experienced campers.

TravelCOMPASS

Fullstack Web Application

Spring Boot, ReactJS, Python, MySQL

[Github Link](#)

Travel Compass, a smart and user-friendly travel planning platform. Our goal is to help travelers easily plan trips based on their budget, while also giving hotels, guides, and vehicle rental services a space to connect with users. The most exciting part? Our platform uses AI to recommend the best travel packages based on each traveler's needs.

AutoDOC

Fullstack Web Application

NodeJS, ReactJS, MySQL

[Github Link](#)

AutoDOC website is a digital platform that streamlines the process of booking, tracking, and managing vehicle maintenance and repair services. It allows customers to schedule service appointments, view service history, and connect with service providers efficiently, improving overall customer experience and workshop productivity.

VeteZ

Fullstack Web Application

NodeJS, ReactJS, MySQL

[Github Link](#)

VetEZ is a software application designed to streamline operations and enhance pet vaccination management within veterinary clinics. It aims to offer a user-friendly and comprehensive platform that simplifies administrative tasks, improves communication with pet owners, and ultimately contributes to better pet health outcomes.

CERTIFICATIONS

Technical College-Pathadumbara

Mar 2020 - Mar 2022

National Certificate in Engineering Draughtsmanship(NCED)-NVQ 4

Kandy, Sri Lanka

International Training Institute of Irrigation And Water Management

Certificate of Revit Architecture

Kothmale, Sri Lanka
